

**LAST "EAGLE LAUNCHED
AT FORD SHIPYARD.**

Five Hundred Bodies Daily to Be Made in Plant.

The Ford "Eagle" Boat Number Sixty—the last one to be built by the Ford Motor Company under the stipulations of its war-time contract with the Navy Department—was launched at the River Rouge (Detroit) yard August 16th at 3:30 P. M.

on the long assembling building which is a third of a mile long and housed twenty-one of the submarine chasers at one time, is already being transferred into a body-building plant with a proposed output of 500 bodies daily.

Ford officials, workers, sailors and many invited guests witnessed the launching. Number Sixty was dressed with flags and bunting and as it found its level in the Rouge and floated free from the railroad tracks which had carried it onto the elevator-like launching table, the factory whistle took part in the ceremony by blowing sixty blasts—one for each boat launched at the Ford Yard.

Twenty-five "Eagles" have already been commissioned by the navy, and it is expected that the remaining boats will be entirely completed by November 1st. One thing which greatly prolonged the work was the change made in the outfitting of the boats shortly after the armistice was signed. As rapidly as the "Eagles" are commissioned they are joining different squadrons of the U. S. fleet. Six of the Ford boats are going to the Philippines to replace six old destroyers and gun boats; another squadron will join the International Patrol off coast of China; "Eagles" 1, 2, and 3 are now

doing patrol duty adjacent to Archangel, Russia, and it is quite probable that a small fleet will be sent to Italy.

The "Eagles" were designed particularly to carry the submarine detecting devices or "listeners," depth bomb protectors and three-inch guns with which to combat the U-boat once it had been located by the "listener." They are practically noiseless in operation, light, speedy and so constructed that a quick get-away is possible—it being necessary to often stop to "listen" while chasing down a detected sub. Had the submarine destroyers been called into actual service—which only the signing of the armistice prevented—they would have operated in flotillas of three.

Commander Nicholas, stationed at the Rouge Yard, said he knew of no statement or report issued by the Navy Department relative to the merits of the "Eagles," but that they have performed remarkably well on their trial trips and all tests given them just before leaving the Ford Yard. And that had they been called into actual service, they would have proven a very formidable enemy to the submarines.

THE AMERICAN GOVERNMENT STILL NEEDS YOU

One would naturally think that since the war is over there would be no demand by the Government for Civil Service employees but not so. There is a great demand. There is so much clerical work to be done under the reconstruction program, until the Government is still holding weekly examinations in four hundred cities of the United States. The pay is good, the hours short and the work in Washington is an education within itself.

Young men and women who possess the right training will receive a ready welcome in Government offices, banks, insurance offices, business houses and railroad offices. Whether you must earn your living or not it is worth while to be able to do so. Education has a lifting power that can hardly be measured. The right kind of education gives the ability

FROM STATE PRESS IN DALLAS NEWS.

The Perfectionists.

Sherman Courier: President Wilson aptly calls on the opponents of the peace treaty and league of nations to devise a better scheme. He will be the first to admit it and endeavor to have it adopted—and if it is better it will be adopted. The fellows who are shouting so much have never done much, and they would amount to little and attract little notice but for their opposition to a beneficent measure and progressive policies.

Well, Borah and Johnson are telling the world that they could devise a better treaty, though as a matter of fact they have never, in their combined or separate careers devised anything of any particular merit, notwithstanding each has been in politics longer than Woodrow Wilson has. Mr. Wilson does not contend that the League of Nations covenant is a perfect document. He knows, as do all who join

him in support of it that time has worked out needed changes, just as time has worked out needed changes in the Constitution of the United States. There were abler men than Johnson or Borah in opposition to the Constitution when it was devised and adopted, but, happily, they did not prevail; and that instrument is the most revered political charter in the universe today, not that it was perfect at the beginning, but that its permanent excellences so outweighed its temporary defects.

OIL FOR SMALL PARTS

The brake mechanism seldom gets the lubrication it deserves. Oil is required on the pins supporting the brake shoes and upon the bearing points of the cams or toggle mechanism which actuates the brakes. These parts usually depend for lubrication on the hand oil can. Beginning at the operating lever, every joint in the brake rod needs occasional oiling; and the bearings of the compensating shaft.

British manufacturers have found that paper can be profitably made from grass growing prolifically in Burma.

In the first six months this year mines in western Texas yielded silver at the rate of 590,000 ounces a year.

In a newly mustered Irish regiment a conscientious lieutenant was haranguing his men before starting for the front.

"It all depends on yez byes," he exhorted. "Will yez fight or will yez run?"

"We will!"

"Will what?"

"Will not!" responded the men with one voice.

"I knew yez would," said the satisfied officer proudly.—As you were.

Druggist: "Take this. It will pull you around."

Dizzy Officer: "Pull me around? I'm going around already. Can't you give me something to anchor me down?"—Passing Show.

HINTS TO THE CAR OWNER

Put a wrench on the spring clips occasionally. If the clips are not tight the front axle may shift its position slightly and you will note the result in a bad worn tire.

No harm will result if the spring leaves are well lubricated. To the contrary, you will enjoy more comfort in driving over rough roads.

Watch the magneto and generator couplings. The bolts work loose and by a timely inspection you may avoid the delay and expense of a tow-in.

Some time, while exploring the lower regions of the chassis see that the

brake rods have pull springs to insure full release when intended. A hot brake will be avoided.

Contrary to very frequent advice, the leather of the clutch should be kept soft by liberal application of neatsfoot oil so that it will engage slowly instead of with a jerk.

Don't neglect cuts. Water and dirt gets in and rots the fabric, often causing blow-outs. Inspect your tires weekly for cuts and have them scaled promptly.

Don't forget to use extra precautions when you see a child crossing a highway.

Don't forget that your lights must be lit within half an hour after sunset.

Don't race your engine. You can not abuse the engine worse than by allowing it to race at high speed without a load.

Don't neglect your lamp connections as it is very necessary when washing a car to disconnect one of the wires.

Don't neglect necessary adjustments and repairs until it is too late and you are laid up by the roadside.

NOTICE IN PROBATE

THE STATE OF TEXAS)

To the Sheriff or any Constable of Milam county—Greeting:

You are hereby commanded to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Milam, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

Notice.
 THE STATE OF TEXAS)

To all persons interested in the estate of D. Kirkland, deceased, James E. Brewer has filed in the County Court of Milam County, an application to probate the Will and Last Testaments of D. Kirkland, Deceased, which will be heard on the First Monday in October, A. D. 1919, same being the 6th day of October, A. D. 1919, the Court House thereof, in the City of Cameron, at which time all persons interested in said estate may appear and contest said application if they see proper.

HERE FAIL NOT, under penalty of the law, and of this writ make due return.

Given under my hand and seal of office, in the City of Cameron, the 15th day of September, A. D. 1919.

Attest: WILL T. YATES,
 Clerk County Court, Milam Co., Texas
 By DICK CLARK, Deputy
 20-31-22

A device that records the vibrations of the voice on a photographic film has been invented by a Frenchman to aid students of singing.

LEATHER WASHERS.

A leather washer placed underneath the metal washer not only helps to eliminate unnecessary noise, but gives a sort of elastic compression that prevents stripped threads when the bolt is a little too small for its job.

666 has proven it will cure Malaria, Chills and Fever, Bilious Fever, Colds and LaGrippe. It kills the parasite that causes the fever. It is a splendid laxative and general Tonic.—Adv. 18

Best be certain and not guess. You can save through W. S. S.

FORD FENDERS TIGHTENED

Rattles in the fenders of the Ford car may be obviated by taking them off, threading the end of the fender iron and putting on a nut after the fender is back in place. This nut draws the fender up tight and prevents it working out of the fender iron.

BATTERY CONNECTOR

A very convenient battery connector may be made from a piece of heavy steel coil spring. The spring wire at each end is fashioned into a hook and these are slipped into the battery posts, the tension of the spring insuring perfect contact.

CHEVROLET

By scientifically safeguarding the quality of every piece of metal that is used in the construction of the Chevrolet valve-in-head motor, uniform efficiency and low operating costs are assured.

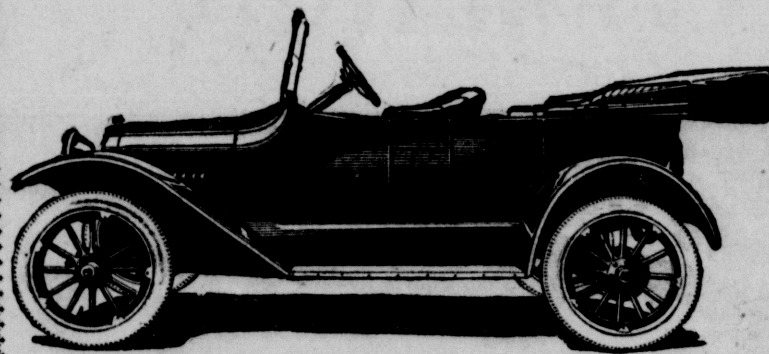

And as the capabilities of the motor are proven before it leaves the factory, the purchaser of a Chevrolet has the certainty of future satisfaction.

Such assurance means much. It means an investment in economical transportation that is safe, certain and adequate for all uses and emergencies. To buy a Chevrolet is to buy a known quantity—a proven quality.

STATE CANNOT USE AUTOMOBILE TAX

Under Law Cannot Construct Roads But It Can Be Used For Maintenance.

The Automobile tax cannot be used by the county commissioners for the construction of highways. Under the law it must be used for maintenance only.
 This announcement comes from the State highway department and is a warning to the counties that this fund is in trust for a specific purpose. It has come to the knowledge of the department that some counties have planned to spend this money for construction, but such plans will not be approved.
 The automobile tax is collected by the county tax collector. The county

retains one-half the tax and one-half is remitted to the department. There is an expense of two per cent for collection. Of this the county pays one per cent, which is the only expense charged against it. All expenses of registration are paid out of the half that goes to the State.
 The 49 per cent of all automobile license fees that become the share of the county, goes into a special fund in the county treasury for maintenance of roads. The wisdom of this provision of the law is at once apparent, when it is known that after construction there must be maintenance. No road will last forever. Continual traffic will wear the most permanent road surface, and unless there is provision for upkeep, the bond issue property will become crumbling material beneath the wheel traffic of the county.
MAKE PRELIMINARY TESTS ON SUPPRESSING MALARIA
 Preliminary surveys to determine the cost of exterminating mosquitoes and suppressing malaria in 12 Texas towns, are to be made, State Officer C. W. Goddard announced Saturday. The work will be done by a United States sanitary engineer under a co-operative plan between the State board of health and the international health board, and it will be without cost to the towns in which the survey is made.
 Towns elected are Athens, Bryan, Cameron, Conroe, Crockett, Henderson, Longview, Lufkin, Nacogdoches, Navasota, Palestine and Trinity.
 A prize of \$25,000 has been offered for the first aviator who makes a non-stop flight between Paris and New York in either direction.

ADVERTISERS OF FACTS CAMERON TEXAS

The Round Bale Gin

We are now putting the finishing touches to our new and enlarged Round Bale Gin Plant in Cameron and in a few days will have the largest and most complete Round Bale and Square Bale combination gin anywhere in this part of Texas. We have installed a complete new Lummus Air Blast System outfit at this plant, which doubles the capacity of the Square and Round Bales at this gin. Our manager, Mr. S. H. Hopkins, who was formerly a resident of Cameron and handled this plant in 1910 and 1911, will be remembered by his old friends and is prepared to give you first class service and satisfaction.
 Our other gin plants are in the best possible shape and are running daily and we are prepared to handle your cotton promptly.
 The Oil Mill has started on the new season's run and will of course have a supply of hulls and meal at all times.
 As usual we buy cotton seed every day in the year except Sunday and will pay the highest cash price for seed.

R. L. Batte
 Cameron, Texas

in our State last fall.
 It is a well known fact among medical men, that one of the special characteristics of influenza is that it recurs in cycles, and with each return records a heavy mortality. In each cyclic outbreak in the past the disease has reappeared in the fall and winter for from one to three years following the initial outbreak. The great epidemic of 1889 was followed by outbreaks in the fall and winter for three years following, and with an increasing mortality rate each year. The same history is recorded of epidemics of influenza in Europe, and in fact as far back as we have been able to gather statistics, each initial outbreak of influenza has been followed by recurrences in the next two or three years following. Since it is well known that history expect a recurrence of this dreadful disease this fall and winter, with a high mortality, especially from pneumonia.
 I can not predict with certainty that we will have another epidemic of influenza this fall and winter, but I can with certainty say that if we do not, the history of epidemics of influenza in the past will not hold good for the future.
 In the light of past knowledge and experience, it would be nothing short of criminal to take no steps to protect the public against a possible recurrence of last season's devastation. Based on incomplete statistics from rural and urban reports, it is estimated that there were approximately 450,000 deaths from influenza in the United States and approximately 25,000 in Texas, from the epidemic. The epidemic last year which swept over the country with hurricane like rapidity, found the country depleted of its doctors and nurses, many communities having neither. At this time, most of them have been released from the army and have come back to us rich with experience and trained in public health work.
 The excessively heavy rains this year have caused an unusually heavy growth of vegetation which is apparent not only in the small villages and towns, but in places in our cities; while pools of stagnant water, and liters of garbage are to be seen in far too many places.
 I am now calling upon you to begin an active campaign in anticipation of a possible recurrence of influenza, and as a matter of civic pride and health protection in general.
 In every village, town and city. Health Boards should be organized or rejuvenated, where they already exist, and "CLEAN-UP CAM-

PAIGNS" put on, and every possible means taken to be prepared for any emergency.
 Local health officers should at once call a meeting of their health boards if they have one, or a meeting for the purpose of organizing one if they do not already have one, and then enlist the aid of the Commercial Clubs, Civic Clubs, Boards of Trade, Social Welfare Workers, Parent-Teachers Associations and all other organizations interested in civic advancement and the betterment of health conditions in their communities.

I am calling upon the newspapers of the State to join me in this note of warning and trust that every paper in the State will not only copy this article, but add such comment as they feel will be helpful in promoting this defensive work in the interest of humanity.
 If these prevailing measures are not taken, then from past experiences with influenza, you may reasonably expect your community to suffer the penalty of YOUR NEGLECT.
 C. W. GODDARD,
 State Health Officer.

FINE CAMERON YOUNG MAN TAKES THORNDALE BRIDE

At eight o'clock, last Saturday evening, Mr. Ephraim Chandler of Cameron led to the altar, at the home of the bride's parents, Mr. and Mrs. A. L. Hinds, their charming daughter, Miss Katie Sue, when Rev. P. R. White of the Methodist church performed the beautiful ceremony that united them in holy wedlock. Only a few relatives and friends of the family witnessed the nuptials including the family of Dr. L. L. Lee, L. I. Wilson and wife and Misses Daisy Wilson of Thorndale and Mabel Chandler and Mabel Adkins, sister and cousin of the groom, from Cameron and Captain A. J. Ravaneau.

The bride is a young lady of many charming accomplishments. She has lived here the greater portion of her life, and her lovely disposition and amiability of character had drawn around her a host of friends who learned with great pleasure of this crowning happiness in her life.

The groom formerly resided in Thorndale, where for some time he was night superintendent of the Thorndale Oil Mill and he now holds a responsible position with the R. L. Batte oil mill interests at Cameron. While here he won the respect and esteem of all with whom he came in contact.

Immediately following the ceremony Mr. and Mrs. Chandler left for a short honeymoon trip to Corpus Christi and Rockport, and are now at home in Cameron.—Thorndale Champion.

Ephraim Chandler is a son of Mr. and Mrs. T. K. Chandler of this city and is a young man with many fine qualities, his grit and determination has caused him to advance in the employ of R. L. Batte until he holds a very responsible position.

These young people will make their home in Cameron as above stated and The Herald joins in extending congratulations.

SUNDAY SCHOOL CENSUS TAKEN BY BAPTISTS

A committee from the Baptist church and Sunday school spent several days last week taking a religious census of Cameron, with a view of seeking out those in our midst who are not connected with the local churches and sabbath schools and getting them in line for a general revival of religious activities in our city.

This is a commendable move on the part of our Baptist friends and we understand that when the report from this canvassing committee has been tabulated, a copy will be furnished other denominations of the town so all may share the benefits to be derived from this canvass and be enabled to work more intelligently in an effort to have every home in Cameron in touch with the church.

CELEBRATES 72ND ANNIVERSARY SUNDAY

Last Sunday, September 7th, the home of Mr. and Mrs. M. M. Johnson of this city was the scene of a happy family reunion, the occasion being in honor of the 72nd birthday of Mrs. Johnson's mother, Mrs. Mary Carpenter. The celebration was planned by Mrs. Johnson as a pleasant surprise for the mother and all members of the family, which is a large one, had been invited to participate.

Two sisters, a brother-in-law, a niece, seven grandchildren and five great grandchildren responded and other members, scattered over the state, sent greetings appropriate to the occasion.

By agreement, all gifts for the honoree were boxes of stationery and other articles necessary for the writing desk. One sister of Belton, who could not be present, sent a handsome box of stationery with an original poem, composed in honor of the occasion.

A bountiful dinner was served to the assembled guests and four generations of Mrs. Carpenter's family were seated around the board with her, thus verifying the promise made by the Psalmist to the godly: "With long life will I satisfy thee."

Members of the family present on this occasion were: Mrs. Mary Carpenter, Mr. and Mrs. M. M. Johnson, Lee Roy Johnson, Fred Johnson, Rube Johnson, Jr., Louise Johnson, Mr. and Mrs. Sam McDermott and children, Wessie, Sam, Jr., and Make of Cameron; Mr. and Mrs. J. E. Mitchell, Mrs. Lu Cook, Mrs. Will Bogart, Belton; Mrs. C. E. Lamb and children, Luther and Rebecca Lamb of Dallas.

The Wise Fool.

Laugh and the world laughs with you, observed the Sage.

"Unless you are laughing at the joke you just told, commented the Fool.

Membership in a War Savings Society will help you to save. Save and succeed.

COX-WALSTON NUPTIALS

Miss Ethel Walston and Mr. Baby W. Cox were quietly married last Monday afternoon at 1:30 o'clock at the Baptist Parsonage in this city, Rev. B. B. Blaylock officiating.

The wedding came as a surprise to the friends of the contracting parties and was witnessed only by members of the parsonage household.

Miss Walston is the eldest daughter of Mr. and Mrs. Joe Walston; has been reared and educated in Cameron and has a host of friends who are her well-wishers. Since her graduation from the Cameron High school she has taught successfully in different parts of Milam county and her friends throughout the county will be pleased to learn of this happy event.

Mr. Cox is a Milam county man, a son of Mrs. J. O. Hughes of Buckholts, and a mechanical engineer by profession.

Immediately after the ceremony the happy couple left on the north bound Santa Fe for Kansas City, where they will be located for the present.

The Herald joins with other friends in wishing them a long and happy life.

SAN GABRIEL NEWS

Sept. 16.—Mrs. Fleming and daughter, Mrs. Cross, of San Antonio, are guests this week of Mrs. Callie Norman.

Walter Felton and father spent Friday in Austin, where Mr. Felton went to consult a specialist about his eyes.

Messrs. J. S. Woody and Edgar Williams spent a few hours last Wednesday afternoon in Cameron.

Miss Mary Camp made a visit to relatives and friends in Austin last week.

Messrs. Ed Case, Henry and Joe Messers. Ed. Case, Henry and Joe Yeager, Felton and Murrell Camp were in Taylor a short time last Friday evening.

Messrs. H. M. Camp and Leonard Locklin were in Rockdale and Giddings a few days last week in quest of cotton pickers.

Mrs. Zora Wilkerson of Cameron was a visitor in our community last week.

F. M. Amason and wife with Mrs. J. T. Woody and Miss Kate were visitors to Thorndale, last Wednesday afternoon.

Miss Lola Kirkman came out from Thorndale to spend the week-end with

her parents.

Miss Oora Yeager returned Sunday from a few days' visit to friends in Thrall.

Little Miss Marjorie Amason of Austin spent a few days of last week with relatives here.

Mr. and Mrs. John Worley entertained a host of friends Saturday evening in a farewell meeting with Rev. and Mrs. Dorby. Sweet music was furnished by members of those present and refreshments of ice lemonade and most delicious cake and cream were served. All enjoyed the evening immensely and pronounce Mr. and Mrs. Worley ideal host and hostess.

Miss Adena Gilchrist of Dilly is the guest of her aunt, Mrs. Lula McMillon and other relatives of this community.

Messrs. Max Westerman, W. F. Scales and son, R. H. Richardson, Joe and Dan Worley and Mr. Burkhart motored thru our village en route from Thorndale to Cameron last Wednesday.

Mrs. Ethel Cast is on the sick list at present writing.

Mr. Webb Stockton of Bartlett is the guest for a few days of his niece, Mrs. Walter Felton, and family.

Little Miss Ira V. Woody is spending this week with the family of her uncle, R. S. Woody in Palestine.

Miss Lillian Barclay was shopping in Thorndale Thursday.

Hubb Faulkner now possesses a Chevrolet automobile which he purchased last week.

Miss Zelma Heisch entertained a few friends Friday evening.

Don't try to argue with Benjamin Franklin. He said: "Beware of small expenses; a small leak will sink a great ship."
